Micro Hard Drive

Micro ON THE Outside

GIGA ON THE Inside

Imation announces the arrival of the world's smallest & most portable hard drives

Here's a cost efficient way to get 4GBs of portable memory in your pocket and on the move. Transfer data fast. Just plug Imation's Micro Hard Drive in to a USB 2.0 port, save your files using 128-bit encryption and you're ready to go.
Shockproof and tested to withstand 1000Gs, Imation's Micro Hard Drive is a rugged solution for business travel. You can even lock it onto your briefcase handle or backpack using the USB 2.0 connector like a padlock. It needs no external power source and its low power consumption preserves your notebook's battery life. Simple to use, cost effective micro storage from Imation

big capacity, micro drive

Small but beautifully formed the Micro Hard Drive has a platter that's smaller than a euro coin and it's worth considerably more when loaded with 4 gigabytes of your valuable data!

keeps your data safe

The USB connector locks in a loop into the top of the drive so you won't lose it on the go. And, with downloadable 128-bit encryption software and built-in error correction, you won't lose your data either. When required, the password protection facility ensures your data remains 'for your eyes only'.

attach it to your briefcase or put it in your pocket

Tough and shock resistant to 1000Gs, the high capacity Micro Hard Drive is the stylish and safe way to carry your data with you. Clip it to something convenient or simply put it in your pocket. Wherever you keep it, it's strong enough to cope with your fast moving world!
